Description

Module: Customers

Severity: High | **Priority:** High

Environment: Production / Web Application (Chrome v128, Desktop 1920x1080)

Reporter: Hania Imran

- Pre-conditions:** At least one customer record exists in the system.
- Steps to Reproduce:**
 - Navigate to the **Customers** page.
 - Click the **Edit** icon for any record in the customer list.
 - Inspect modal rendering, viewport bounds, and header control buttons.
- Expected Result:** Modal dialog renders centrally within the viewport with standard padding and a clear Dismiss button.
- Actual Result:** Modal expands vertically past screen bounds, obscuring header/footer areas and omitting a close button.
- Impact:** User experience degradation; forces users to execute an unwanted update action or refresh the browser.
